

# GEOENGINEERING MEDICINE CHEST

BPC Report on Geoengineering (Climate Remediation) Report - October 4, 2011 - Definition: "Solar Radiation Management (SRM): SRM strategies aim to...MASK the effect of rising greenhouse gas concentrations in the atmosphere by increasing the amount of solar energy that is reflected back into space..."

Skywatch: "When direct sunlight is reflected away from the Earth, using water vapor and aluminum oxide or sulfur particulates to mask warming, risky and unintended consequences are expected:

- Increasing Lack of Vitamin D & Associated Health Problems
- Increasing Acid rain, Air, soil, and Water Pollution
- Causing Declines in Tree and Plant Health
- Lowering Solar Panel Power Production
- Changing Climate & Weather
- Reducing Photosynthesis
- Reduced Crop Production

We are seeing many of these negative impacts today as ever-increasing atmospheric experiments, weather modification programs, and aviation produced persistent jet contrails, man-made clouds, and water vapor impacts on the global atmosphere, are being felt worldwide.

Alaska / Ionosphere Experiments  
 H.A.A.R.P. & H.I.P.A.S.  
 NASA & U.S. Air Force CRRES &  
 TMA Night Clouds Programs  
 EXPERIMENTAL WEATHER  
 MODIFICATION PROGRAMS  
 (NOAA Public Records)

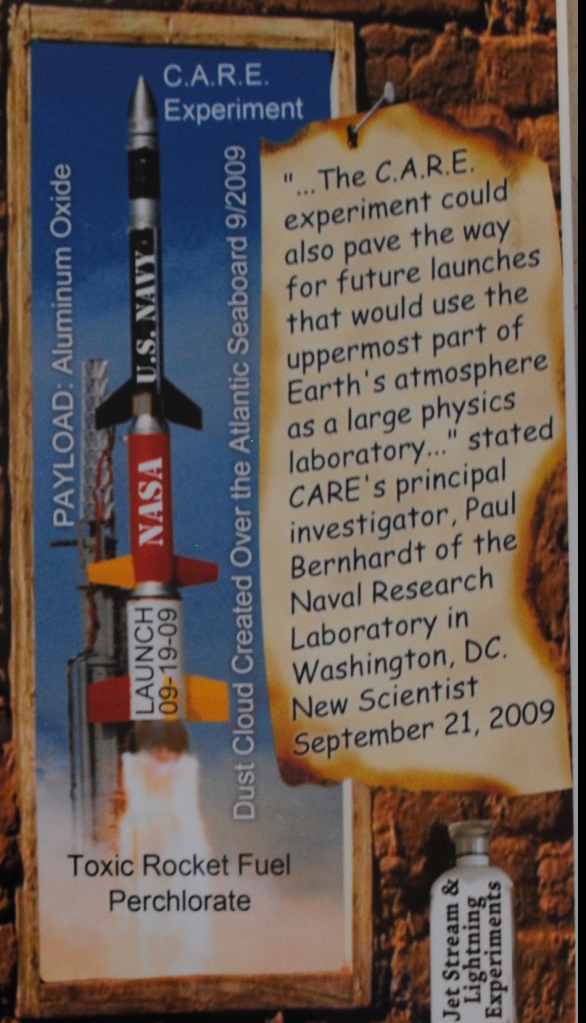

We will use chemicals, particles, and other risky schemes to reduce the amount of direct sunlight reaching the earth!

Let the public money flow and more experiments begin!

We don't need the public to know about our plans or have any oversight of our activities,

**WE KNOW BEST!**

**TAKE LOCAL ACTION TODAY!  
 STOP THE EXPERIMENTS**

## METHODS:

- Sulfur Particulates
- JETS RELEASING CARBON BLACK PARTICLES
- MICROWAVES
- SF6 Tracers
- Aluminum oxide
- Chaff
- LIQUID PROPANE
- ocean salt water
- OCEAN FERTILIZATION
- SPACE MIRRORS
- microwave-beaming satellites
- AgI aerosol & indium sesquioxide

Aircraft Produced Water Vapor, Contrails & Fuel Emission Contribute to Arctic Warming - NASA & Other Studies
